

CASE STUDY

Ready to Race!

6x Varianta 44 racing yachts to the Weymouth & Portland National Sailing Academy.

- PERMITS
- PILOT CARS
- PLANNING

Your Partner in Special Transport.

When our customer, Glogau Int. Yachttransporte GmbH needed to deliver six yachts to the UK, they contacted Teahan Convoi Service to provide assistance with the UK side of the journey. The fleet of six identical Dehler Varianta 44's, are to be used in the RBI Challenge, a unique yacht race around Britain & Ireland covering 2,500 miles. The yachts will also be used in other various events by the Weymouth & Portland Sailing Academy.

Although great care is taken with every job carried out by TCS, extra vigilance was required due to the delicate nature of the loads, and, although a new bypass into Weymouth is being constructed to serve the 2012 Olympic sailing events, the new highway is not yet complete, meaning the last 30 miles to Portland is mainly busy, narrow roads. To ensure the journeys went smoothly, TCS arranged all the permits required to allow the loads to travel within the UK, TCS also escorted the loads from entry to the UK at Dover Docks in Kent to Portland. Extra pilot cars were also required within the county of Dorset to ensure the maximum safety of the transports and the travelling public. All the yachts arrived safely at the sailing academy with smiling faces all round and ready to race!
